

## **CANINES FLY HIGH AT HYPERFLITE SKYHOUNDZ**

### **CANINE DISC WORLD CHAMPIONSHIP**

*Champions Crowned in Four Divisions*

(ATLANTA, September 26, 2006) The top canines in the world converged on Atlanta's beautiful Piedmont Park to compete in the Hyperflite Skyhoundz World Canine Disc Championship held on September 23-24. With gnashing teeth and flying paws, the top dogs did their thing in front of an appreciative crowd of human and canine spectators. When the dust settled, new Hyperflite World Champions were crowned in four championship divisions.

In the Sport Division, an event that tests speed, catching consistency and throwing accuracy, John Bilheimer (Glen Burnie, MD) and his hard-charging canine "Beamer," won the championship in an exciting face-off round with Jeff Stanaway (Jamaica, VA) & CoJo that had spectators on their feet.

Not to be outdone, the MicroDogs showed why their larger brethren should quake with fear. Mixed breed "Seven" and Tony Hoard (New Castle, IN) edged out Susan Jones (Thonotosassa, FL) and Whoopin' Roo for the MicroDog world title.

Crowd favorite Pairs Freestyle, which features two human throwers working with one canine, saw a first when Frank Buckland (Pasadena, MD) and Shannon Bilheimer (Glen Burnie, MD) repeated as champions with an amazing display of teamwork that "doubled the fun" for their canine teammate "Shiloh."

Finally, the Open Division, which featured spirited competition in two disciplines, freestyle and distance, saw Danny Eggleston (Osceola, IN) and "Guinan," (think Star Trek: The Next Generation) take home the top honors.
